\* Must be the same Share Savings Account as the loan being skipped

Upon approval of this request, we will skip your payment(s) for either November 2016, December 2016 or January 2017 based on your designation. Your loan(s) will resume normal payment schedule the following month. If you skip your loan payment(s), the term of the loan(s) may increase and interest will continue to accrue on the unpaid balance. The interest is deferred to future payments. By skipping a payment(s) on your loan(s), the total amount you pay for finance charges on your loan(s) could be greater than stated on your loan disclosure(s). If you purchased Guaranteed Asset Protection (GAP) for your loan, this skip request may affect the amount paid at the time of a GAP claim. A fee of \$10 per loan is a finance charge and will be deducted from your share savings account for this service at the time this request is processed. For loans that are paid via origination: if you initiated the payment at another financial institution, you must contact that financial institution to stop the transfer. If the origination was initiated at ServU and is a direct loan payment, the origination will be skipped for the month that you selected above. The origination will resume the following month. This offer does not apply to Visa Credit Cards, any Real Estate Loan including "PLUS" Loans, Student Loans or loans currently being paid by CUNA disability.
